

29th of March 2010

Press Release

Suceava will be reconnected to the Carpatair route network from March the 30th

Carpatair, the full service airline with a HUB in Timisoara, will recommence operation on the Suceava – Timisoara internal route starting with the 30th of March 2010. Flight will be operated via Sibiu, offering external connections to 9 destinations in Italy, 3 in Germany, 3 destinations in Ukraine, Athens in Greece and Chisinau in the Republic of Moldova.

Through these flights, Carpatair is offering access to passengers from Suceava to a network of 9 internal destinations and 17 external destination where the company operates flights to from the HUB in Timisoara. The destinations are Italy, Germany, Greece, Ukraine and the Republic of Moldova.

The Suceava – Timisoara and return flights will be operated at a frequency of 3 flights / week as by the following schedule:

Route	Weekday	Departure	Arrival
Suceava – Timisoara	Monday/Wednesday/Friday	07:10	08:45
Timisoara – Suceava	Tuesday/Thursday/Saturday	15:30	17:05

Flights will be operated with modern Saab 200 aircraft with a seating capacity of 50. The Saab 2000 offers a high degree of passenger comfort and complex onboard service. Both in business and economy classes.

„Recomencing Carpatair flight to/from Suceava answers the need to connect Romania's most norther airport to its western gate – Timisoara, and from here to 26 other domestic and international destination which would have been otherwise difficult to access”, declared Paula Ardelean, Vice-president Marketing & Sales.

The new flights are available for purchase on the company's website www.carpatair.com. For mre information regarding ticket reservations and different flight options available, passengers may contact Carpatair Call Center, or write an e-mail to reservations@carpatair.com.

Carpatair curenly operates from 10 airports in Romania, operating direct flights ti destinations in Italy both through the HUB in Timisoara and from the operational bases in Bucharest and Craiova.

ABOUT CARPATAIR:

Carpatair is the biggest regional airline in South-Eastern Europe (mainly operating on niche regional markets). Upon the successful application of the HUB&SPOKE concept (air transport node where passengers are offered connections to all the destinations in an operators route network), Carpatair has succeeded in developing the most efficient aerial HUB in Romania, at Timisoara.

Carpatair is the largest operator on the market for the Romania – Italy route, offering the biggest number of destinations in both countries. With the announced summer schedule, the total number of flights to Italy reaches 158 one-way a week. The total number regular flight operated by the company reaches 280/week, to 30 destinations in 6 countries.
