Press Release

Daily flights from Satu Mare to Europe

Timisoara, 20 March 2008 – From 31 March, Carpatair will switch to daily operation of its flights from/to Satu Mare. From this date on, all passengers coming from the north-west of Romania will have daily access both to the direct flights to Timisoara and the immediate connections to 15 of the most important European cities to which Carpatair operates scheduled flights.

Two years ago, Carpatair was launching its flights to Satu Mare. The significant number of foreign companies already settled in this region, the presence in the county of a strong business community closely connected with Germany, and last but not least, the important number of Satu Mare residents who travel abroad have determined Carpatair to inaugurate scheduled operation from the north-west of Romania to the entire European network of the company in spring of 2006. The first two years, the flights to and from Satu Mare were operated three times a week.

Starting with the end of March 2008, Carpatair doubles its operating frequencies to/from Satu Mare and the residents of this town will be able to fly daily – Monday to Saturday, between Satu Mare and Timisoara and return, or continue their journey to the international destinations operated by Carpatair to Italy, Germany, and Greece.

The flights Satu Mare – Timisoara – Satu Mare are operated with a short stop at Oradea Airport from Monday to Saturday according to the following schedule:

Satu Mare – Timisoara 06.40 – 08.00
