Direct flights from Suceava to Timisoara in only one hour!

Timisoara, 4 October 2006 – Carpatair switched the operation of Suceava – Timisoara flights into a domestic status, connecting this way the extreme northern city of Moldavia with Timisoara, the extreme western gate of Romania. So from now on, besides the connection flights to Italy Germany and France, the passengers from Suceava can choose the domestic flight to Timisoara instead of over 10-hour travel by train or by car. This way, they can opt for a much faster and more comfortable means of transport, which allows them to reach the final destination in approximately 1 hour of flying.

The flights are operated three times a week, departing from Suceava Airport each Tuesday, Thursday and Saturday at 06.40 a.m. and arriving at the same airport each Monday, Wednesday and Friday, at 4.46 p.m.

Carpatair connected Suceava to Timisoara's hub on 23 March 2006. Being integrated in the company's strategic project of extension, the new connection was determined by the market signals and the strong interest shown by the travel agencies, as well as by the corporative clients whose business were developed majorly in the north of Moldavia. With a presence on the regional air transportation market of 7 years, this year Carpatair has connected two new Romanian stations to its hub in Timisoara – Suceava and Satu Mare, as well as Lviv (in Ukraine) and Paris 'Charles de Gaulles' (in France) and reopened the evening flights to Frankfurt am Main (Germany).
